Laboratory No: 9952

Dear Jason Travis:

**SUBJECT: Laboratory Certification**

The information that was prepared and submitted to this office by your laboratory has been reviewed. Based on this information, the Department of Environment, Great Lakes, and Energy (EGLE) has certified your laboratory for compliance monitoring under the Safe Drinking Water Act, 1976 PA 399, as amended. Our certification for your laboratory by parameter is as follows:

**Microbiology**

Certified Parameters:

Total Coliform and E.coli (via Standard Methods, 21<sup>st</sup> Edition, Method 9223B, Colilert)

**Limited Wet Chemistry**

Certified Parameters:

Nitrate (via the Hach TNTplus 835/836 Nitrate Method 10206)

Our certification of the Central Michigan District Health Department Assurance Water Laboratory for the microbiological and chemical examination of drinking water is contingent on your continued compliance with state and federal regulations. Additionally, your certification is contingent on the submission of acceptable proficiency test sample results from a state-approved supplier on a running 12-month basis.

Our certification of your facility will expire on September 21, 2025. At your option, you may display the enclosed certificates.
